To use your Thomas Bobwhite Quail Call (#150),

Observe that one of the holes in the call is significantly larger than the other. Grasp the dee ring between the thumb and forefinger on your right hand so that the larger hole is toward your mouth. Place your upper lip in the depression on the call and your bottom lip below the rim of the call. Cup the fingers on your right hand and bring the cupped fingers on your left hand up to form a megaphone around the call. Inhale (starting with a "T") to produce the "*Twhere 'r yee*" call of bobwhites trying to regroup.
